1 Cyber Security Management

Several manufacturers use security gateway modules to secure the vehicle communication against unauthorized access. This means that unrestricted vehicle communication between the diagnostic device and the vehicle is possible only through prior activation.

Therefore, the Cyber Security Management (CSM) function has been integrated to ensure unrestricted vehicle communication.

In this case proceed as follows:

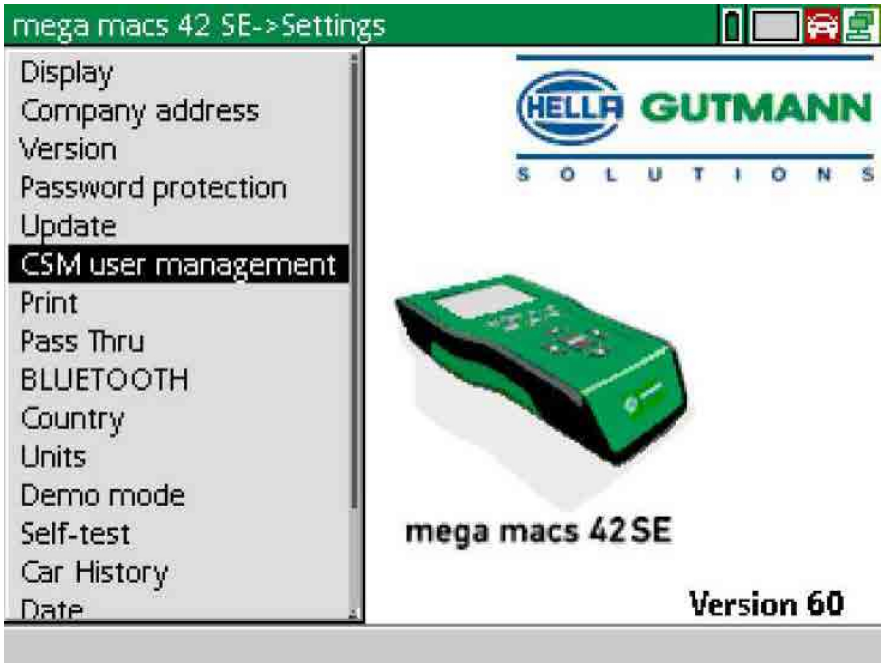
1. Create a new CSM user with the diagnostic device.
2. Use the IdNow app (for Android and IOs) to do a registration in the form of an identity check.

The single steps for creation and for registration of a CSM user in the form of an identity check are explained in the following section.

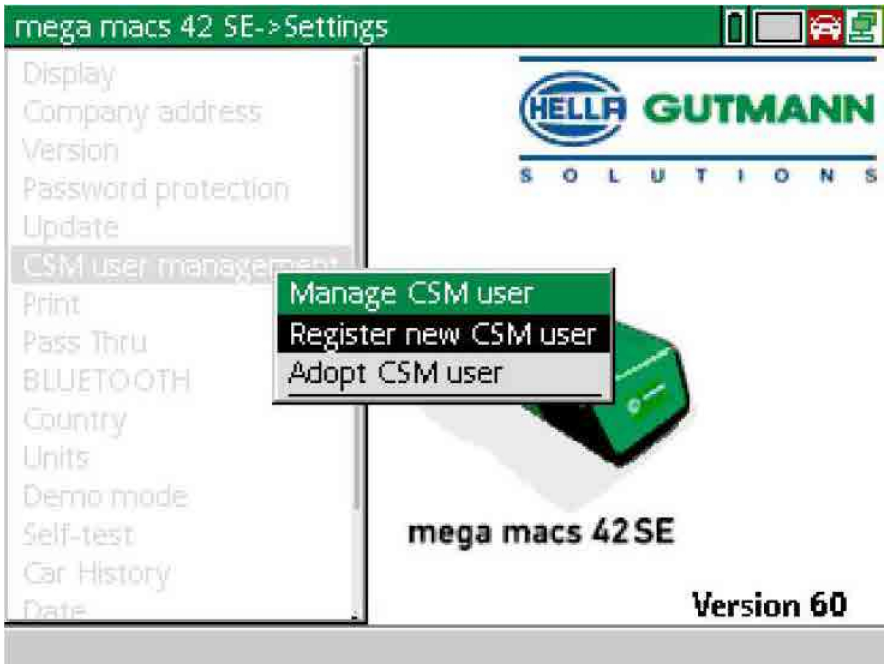
1.1 Register new CSM user

Proceed as follows to register and to log in a new CSM user:

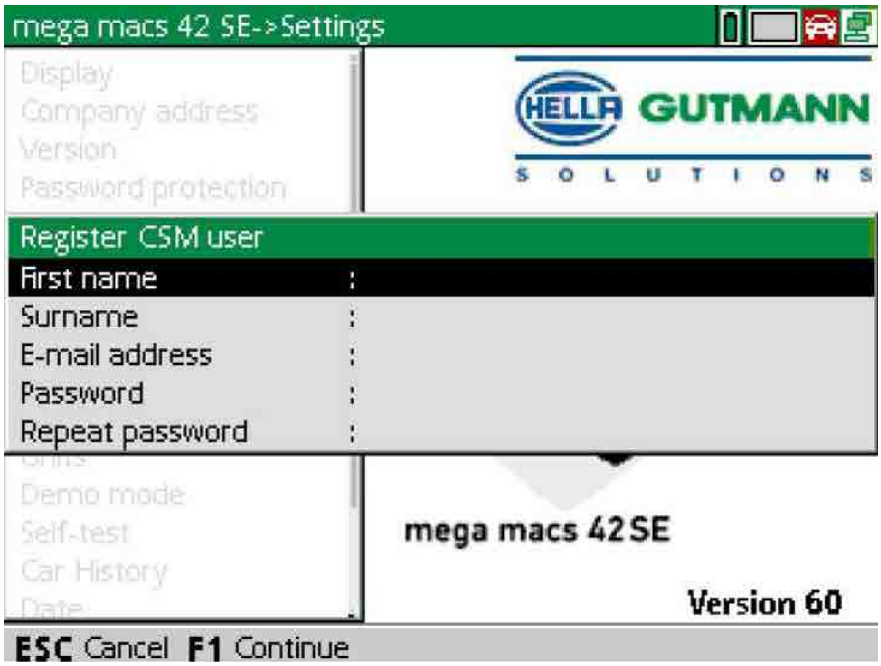
1. Select **Settings > CSM user administration**.



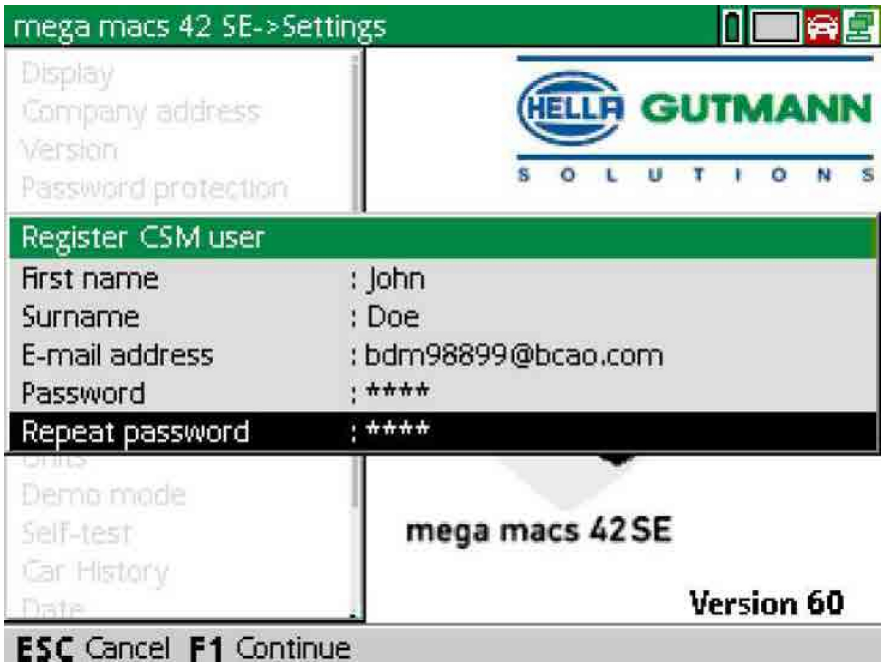
The **Manage CSM users** window appears.



2. Select **>Register new CSM user<** and confirm with **ENTER**.
   The **Register CSM user** window appears.

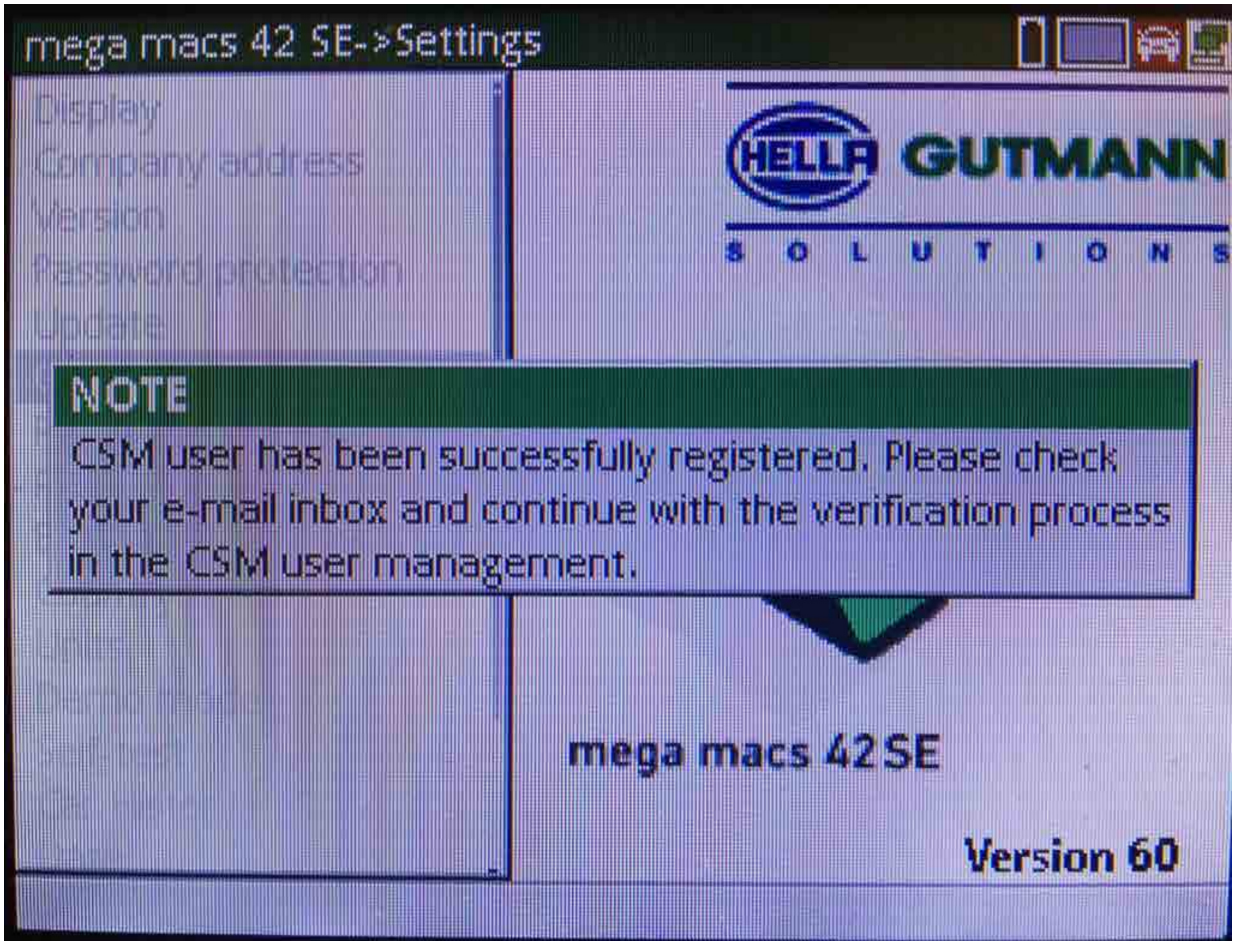


3. Open the virtual keypad with ▲ and enter the user data.



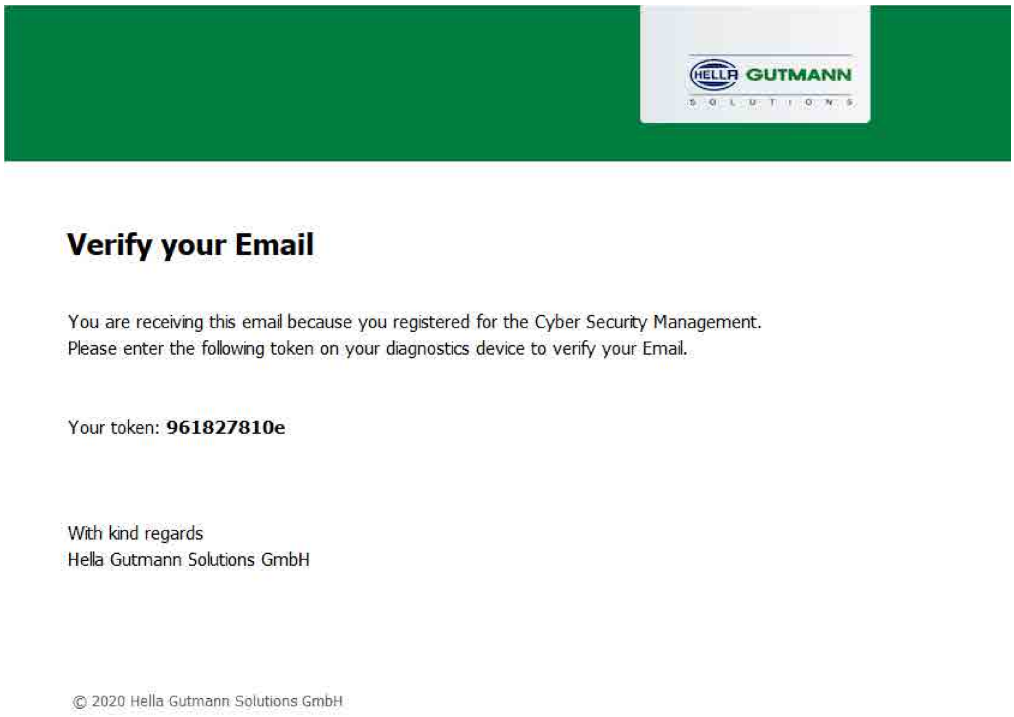
4. Confirm the entries with **F1**.

5. Observe the information window.



6. Confirm the info window with **ENTER**.

	NOTE • A verification e-mail will be sent to the specified e-mail address. • The verification e-mail contains a token.



Verify your Email

You are receiving this email because you registered for the Cyber Security Management.
Please enter the following token on your diagnostics device to verify your Email.

Your token: **961827810e**

With kind regards

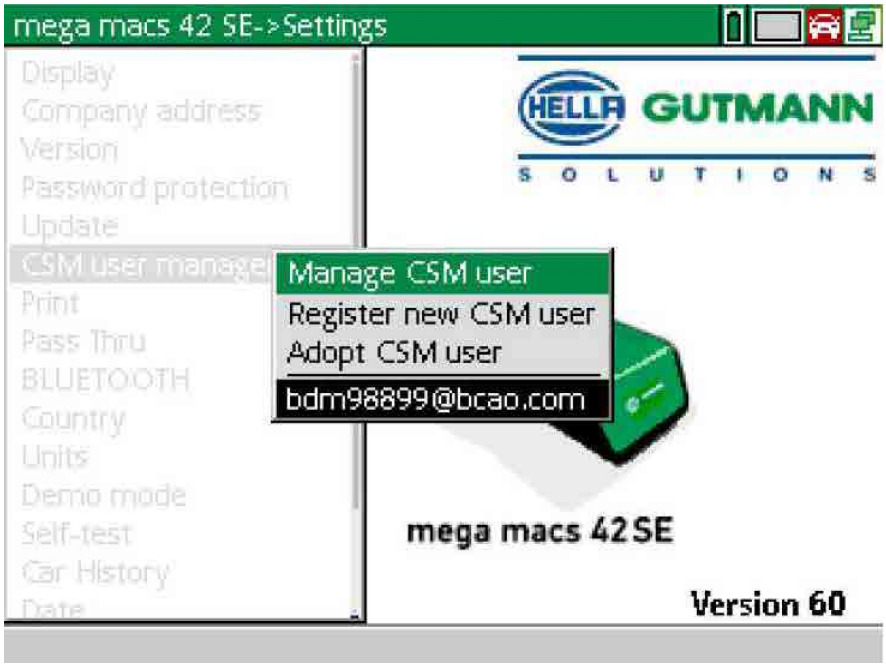
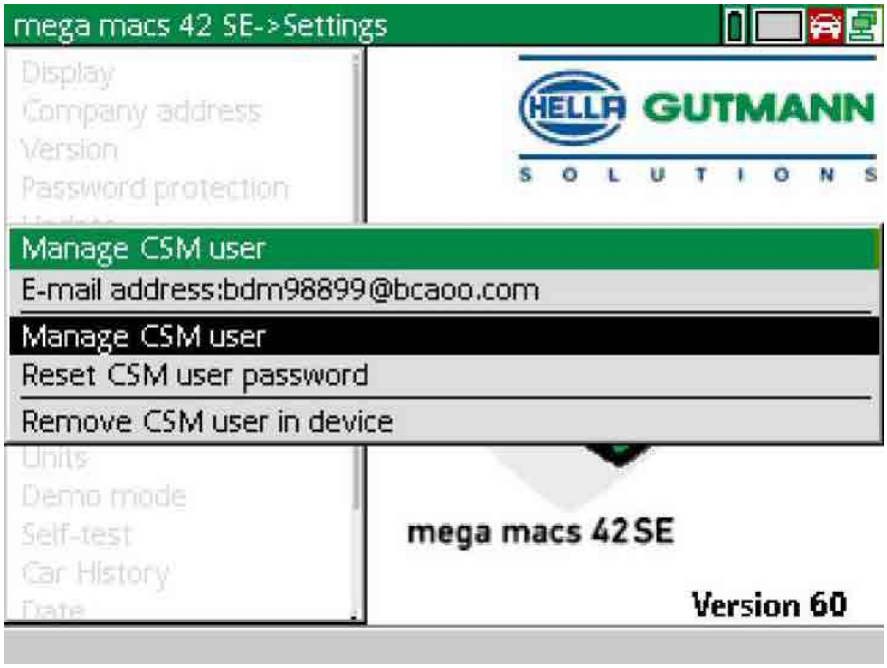
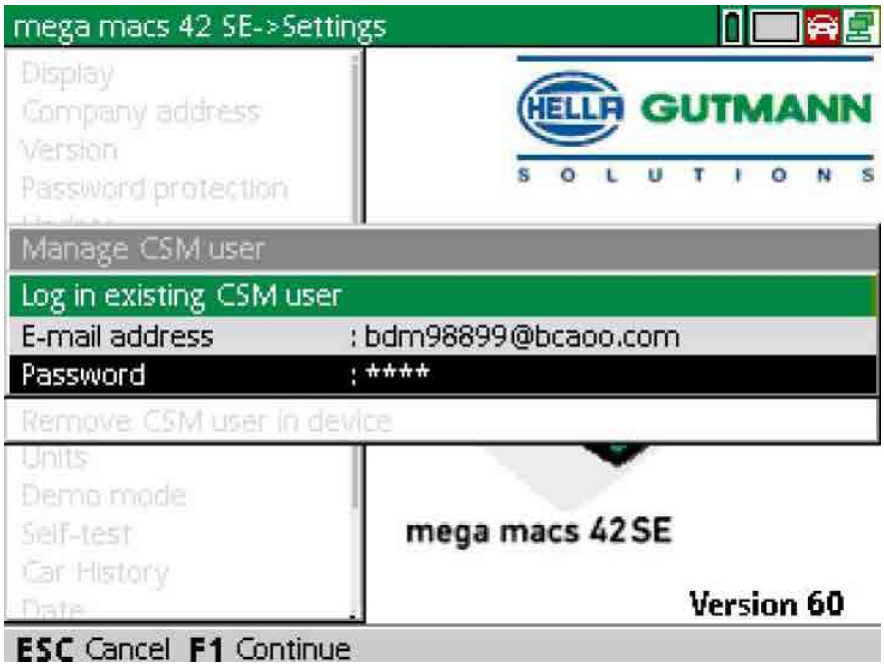
7. Use **Settings > CSM user administration** to select the created e-mail address and confirm with **ENTER**.



8. Select **>Manage CSM users<** and confirm with **ENTER**.



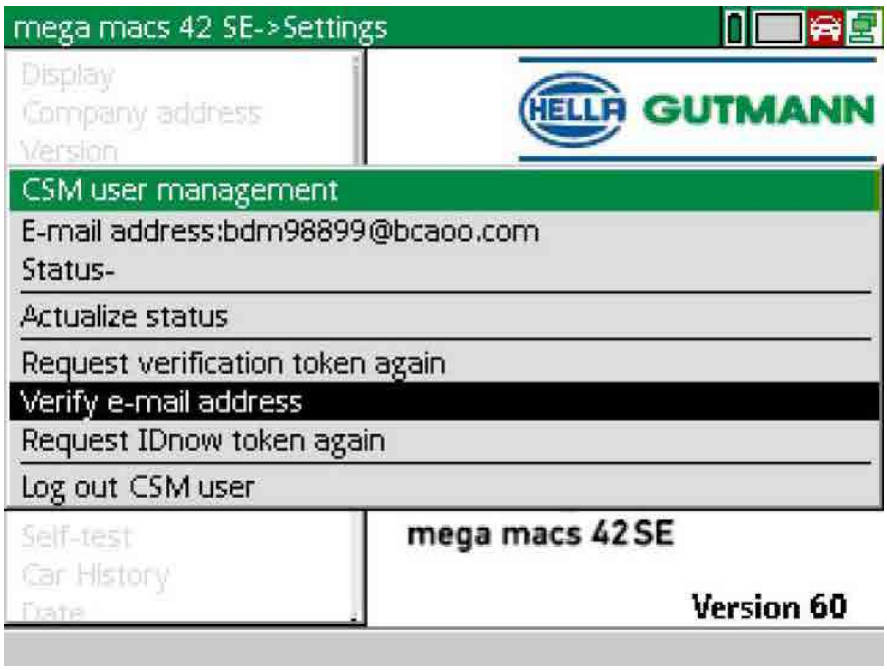
The **Log in existing CSM user** window appears.



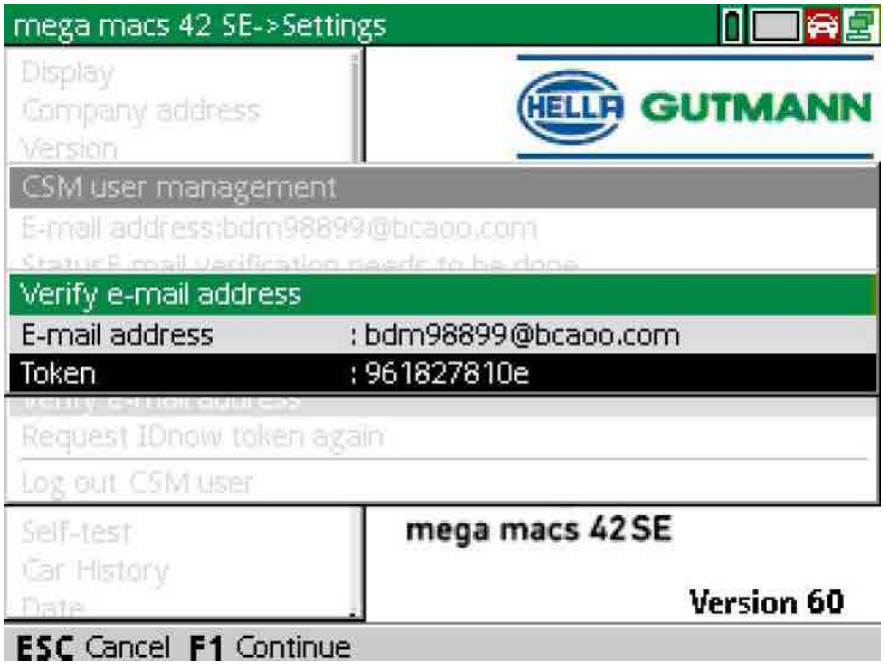
9. If necessary, open the virtual keypad with ▲ and enter the e-mail address and the password of the CSM user created before.

10. Confirm the entries with **ENTER**.
    The **User administration** window appears.

11. Select **>Verify e-mail address<** and confirm with **ENTER**.



The **Verify e-mail address** window appears.



12. Open the virtual keypad under **Token** with ▲ and enter the token from the verification e-mail.

13. Confirm the input with **ENTER**.

	NOTE • A further verification e-mail will be sent to the specified e-mail address. • The verification e-mail contains an IDnow token.

Please verify your identity

Our service requires you to verify your identity.
In order to do so we are using a service provided by IdNow.

Your IdNow-Token: **LEU-HYFVY**

Please use one of the following ways to start the process:

Website: https://go.idnow.de/LEU-HYFVY
iOS App: https://apps.apple.com/de/app/idnow-autoident/id1437143249
Android App: https://play.google.com/store/apps/details?id=io.idnow.autoident

Have your ID document available.

Make sure you are in a well-lit place.

Be ready for a Selfie.

Download the App and follow the instructions.

With kind regards
Hella Gutmann Solutions GmbH

14. Install the **IdNow-App** on the mobile device by using the link specified in the verification e-mail.
15. Open the app and start the identification.
16. Follow the instructions in the app.

Registration is hence finished.
